Languages & Translation: Native Spanish, Fluent English (Bilingual); SDL Trados Studio, Wordfast, MemoQ, XBench

PROFESSIONAL EXPERIENCE

Virtual Administrative Assistant | Lead and Mold Detectives — Sep 2023 – May 2026

Manhattan, New York, USA (Remote)

- **Project coordination & scheduling:** As liaison between field inspectors, property owners, and internal teams, coordinated complex scheduling and ensured accurate data and information flow; optimized scheduling workflows and communication channels, minimizing scheduling conflicts and improving client satisfaction. Successfully coordinated almost 50 inspections per week.
- **Business writing & documentation:** Managed end-to-end documentation, drafting and completing legal inspection records under New York City standards, and prepared proposals and detailed pricing quotes, accelerating turnaround times by 40% and cutting documentation bottlenecks by nearly half.
- **Compliance & records:** Built and managed an organized digital filing system (SOP) for compliance tracking, audit readiness, and client records, supporting consistent compliance with NYC standards. Created 6 SOP from the ground up.

Administrative Assistant | Austin Becker E-Commerce — Aug 2024 – Feb 2025

Indiana, USA (Remote)

- **Expense reporting & data:** To give leadership visibility into performance, created and maintained client expense, invoicing, and advertising KPI reports in Google Sheets with Supermetrics, providing real-time visibility.
- **Logistics & coordination:** Coordinated scheduling, conference logistics, flight itineraries, contractor payments, and client communications, and facilitated task coordination between account managers and external contractors, ensuring business continuity. I coordinated 7 flight itineraries.
- **Process improvement:** Established SOPs (10) for administrative, financial, and client lifecycle management in Notion and ClickUp, giving the agency a documented, repeatable way to run these processes; managed the client offboarding lifecycle, systematically removing third-party access (Google Ads, Google Analytics) to preserve data security.
- **Research & writing:** Analyzed St. Louis Fed (FRED) macroeconomic data to publish LinkedIn content, and drove lead generation through cold email outreach using Clay and Apollo.

Training Coordinator – EHS&S Department | Dow Chemical Company **Mar 2022 – Apr 2023**
Bahía Blanca, Argentina

- **Training compliance:** Led training administration and compliance for the EHS&S department, supporting hundreds of plant employees; developed the department Training Matrix aligned with corporate policies, safety protocols, and auditing standards, and ran structured scheduling, milestone check-ins, and proactive tracking, achieving 99% overall department training compliance.
- **Reports & data analysis:** Built Power BI dashboards and used SAP ERP, Excel, and Workday LMS to track training metrics, interpret data, and deliver insights to senior leadership.
- **Special events & sessions:** Coordinated facilitators and attendees and organized large-scale in-person and remote training sessions for diverse audiences, including onboarding on the Workday learning platform.
- **Policy compliance & audit readiness:** Coordinated Management of Change (MOC) and Operating Discipline Management System (ODMS) processes, and standardized training tracking workflows and documentation, keeping the department audit-ready.

Administrative Specialist – Engineering Department | Dow Chemical Company **Jun 2017 – Mar 2022**
Bahía Blanca, Argentina

- **Executive assistance & calendar management:** Provided administrative and scheduling support to the Project Manager of large-scale capital projects, managing complex calendars, daily agendas, and high-priority schedule adjustments.
- **Purchasing, Budgets & expense processing:** Created purchase requisitions and followed up materials. Monitored project budgets, cost estimates, and expense control in EcoSys, and processed supplier invoices in SAP; streamlined invoice tracking with the central purchasing department, reducing processing delays and leaving the Capital Projects with zero pending items.
- **Vendor & stakeholder coordination:** Liaised with external suppliers, contractors, and cross-functional project teams, improving vendor communication and resolving billing discrepancies; coordinated travel, accommodations, and site access for executive leadership, visitors, and contractors.
- **Training & program materials:** Led the Latin America end-user training for the new Ariba Catalogue purchasing platform: built step-by-step guides and interactive PowerPoint materials and delivered the sessions remotely; designed and delivered onboarding training for new engineering staff.
- **Confidential documentation & compliance:** During plant shutdowns, worked directly with Immigration authorities, compiling and submitting the required documentation to secure legal work permits for foreign specialists and contractors arriving on-site.

English Teacher & Freelance Translator | Siglo XXI University **2003 – 2017**
Bahía Blanca, Argentina

- Translated and proofread technical, scientific, and literary texts (English/Spanish) as a freelancer using CAT tools (SDL Trados Studio, Wordfast, MemoQ, XBench); taught English at the secondary and post-secondary level and served as tutor and administrative assistant at Siglo XXI University.
